EXTRAFAST WD

Fiber Reactive Dye After Scour & Antimigrant

EXTRAFAST WD is an anionic after scouring agent that complexes with and removes all loose fiber reactive dye during the after scouring process. This unique chemistry works very effectively, thus reducing the number of subsequent washes required to obtain excellent wash fastness ratings, especially on dark shades. It is also an excellent antimigrant for use on wet goods when they are waiting to be finished.

GENERAL PROPERTIES:

Appearance: Amber liquid.

Ionic Nature: Anionic

pH: 4.5 +/- 1.0

Water solubility: Instant

FEATURES:

1. Excellent after scour for reactive dyes on cotton goods.
2. Excellent dye antimigrant for wet goods to be finished.
3. Suitable for all types of dyeing equipment – jets, becks, package, beam and continuous.

METHOD OF APPLICATION:

After Scour – 1-2% (owg) added to the second scour/ rinse bath of after scouring process. Exact amount depends on depth of shade.

Antimigrant- 0.5-1.0% (owg) added to the final rinse bath to immobilize dyes prior to finishing.
